

10.1. Workflows in General

Workflows allow to keep **track of the information status** in Pure. For example, an incomplete publication entry has the workflow status *Entry in progress*, while a validated publication has the status *Validated*.

The 'label' under the record shows the workflow status (in this case it is *Validated*).

In the category *Editable* you can find the Research outputs; you can still edit (they have not yet gone through the validation process):

The content types of Activities, Prizes, Press/Media, and Curriculum Vita have no workflows.
