

2.2. Ways Importing and Creating Research Outputs

After checking your Research output and ensuring that the publication does not exist in Pure, you have **three options** to import a publication **immediately**:

1. [Import from online source](#)

Publications published in PubMed, Web of Science or ORCID.

2. [Import from file](#)

Import from RIS, BibTex, and CERIF files.

3. [Create from template](#)

For publications that have not been published in PubMed or Web of Science, as well as for books and book chapters.

Please **refrain from uploading original publications** in PURE, as our system is designed to store information about publications. Uploading original content may potentially violate Open Access guidelines; therefore, it is not recommended. Alternatively, you can **register a DOI or other link** to your publication in the editor window.
