3.3. Non-competitive Projects, Such as Clinical or Privately Funded Projects (Awards with Projects)

> In case of a **not competitive project**, **such as privately funded projects (corporate funding)** etc., you don't need to create an Application, but an **Award and a Project**.

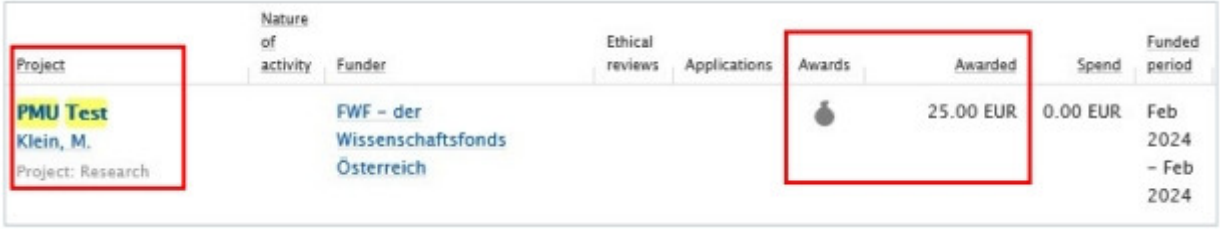

To create a non-competitive project in Pure:

1. **Create** a **Project**. For the details of Projects, refer to the section Projects - Details.
2. **Create an Award based on the Project** by opening the Project and clicking on the "*Save and create award*" button. For the details of Award, refer to the section Awards - Details.

3. Click on "*Save*".

In summary, in case of a **non-competitive project**, you need to create two data types: an **Award,** and a **Project**. These data types need to be linked to each other:
