

9.3. Relations

One of the most important advantages of Pure is, that it **connects** content types with each other. Using relations can help to improve our data quality. For example, a Research output is always related to a person and the person's organisation. These connections are shown under *Display* tab.

To manually add relations to a record:

1. Search for the exact record, you want to link with another (in Pure already existing) record.
2. Go the *Relations* or *Related* section, and choose the type of the content. Begin to search for the record you want to add to this record.
3. Click on *Save*.

These relations are shown in the *Relations* tab of the record:

ID: 31663502 **test application** AWARDED
Application: Research Councils > Additional Funding

Overview  

My awards (1)

test application
Ebner, P.
FWF – der Wissenschaftsfonds Österreich: €15.00
9/11/23 – 22/12/23
Award date: 8/11/23
Award: Research Councils > Award

My projects (1)

test
Nagl, E.
Wellcome Trust
1/01/21 – 1/01/22
Project: Research

To manually add relations to a record **depends on the workflow state**. For example, if a Research output has gone through the validation process, adding a relation is no longer possible for Researchers.
