Question 7: How can I assign a publication to a FIZ (RIC)*?

*FIZ stands for Forschungs- und Innovationszentren, English: Research- and Innovation Centers

> It is mandatory to assign a FIZ to a publication if it was created **as part of a consortial project** in the *FIZ Regenerative Medicine & Novel Therapies (RM & NT) or the FIZ Public Health & Health Services Research (PH & VF)* (more information is available on the PMU website).

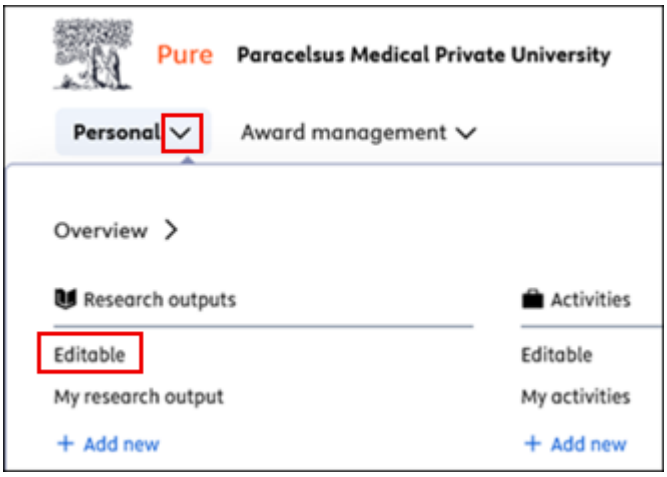

If the authors have listed a FIZ in the **affiliation** of the publication, the FIZ will be assigned by the Research Management during the validation process.

For ***Researchers**:**

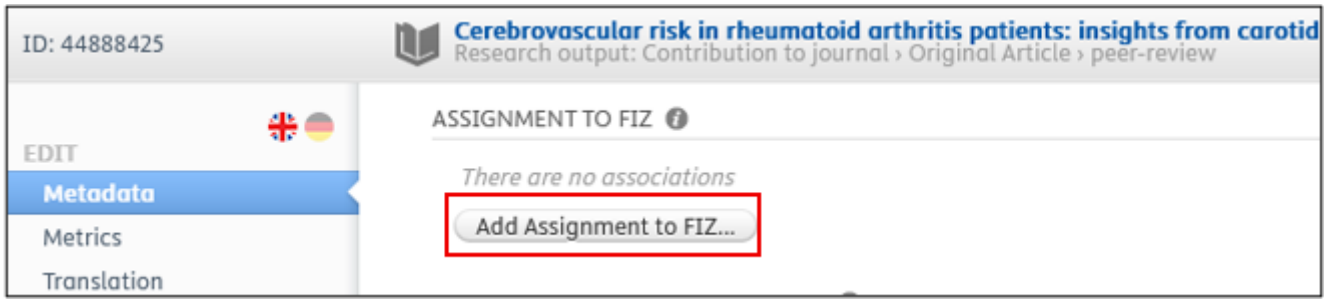

> Assignment to a FIZ is possible as long as the publication remains in the ***'Editable'*** category. Once the publication **no longer** appears **in this category**, researchers can **no longer make changes** to the publication. In this case, please contact the responsible PURE editor or the Research Management team at pure@pmu.ac.at.

For publications in the ***'Editable'*** category:

1. Log in to PURE (for details see Question 1).
2. Click on the triangle icon next to '*Personal*', then select '*Editable*' under '*Research outputs*':

3. Select the desired publication by clicking on it, then scroll down to the section 'Assignment to *FIZ*'.
4. Click on '*Add assignment to FIZ*' and **select one appropriate category from the list:**
   - FIZ Regenerative Medicine & Novel Therapies
   - FIZ Public Health & Health Services Research
   - Publication not within one FIZ–for publications that belong to ***no FIZ***

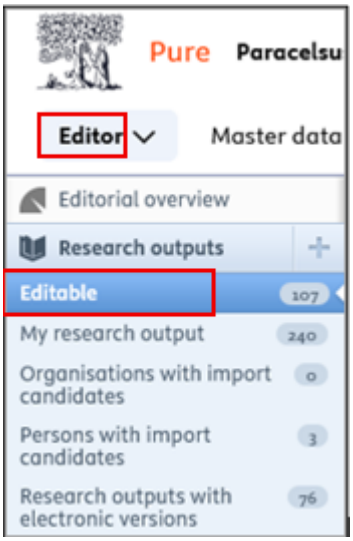

5. Click on '*Save*'.

For **PURE editors:**

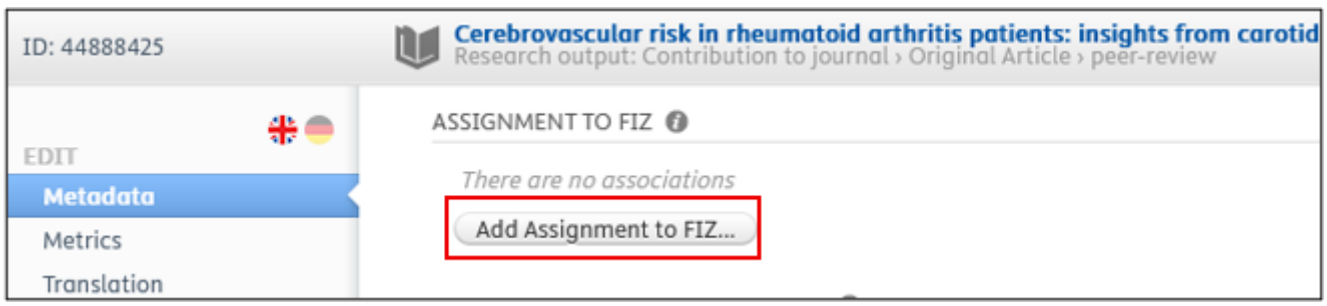

> Assignment to a FIZ is possible as long as the publication remains in the ***'Editable'*** category. Once the publication **no longer** appears **in this category**, **another PURE editor** becomes **responsible** for its management (including assignment to a FIZ). If a modification is still required, please contact Research Management at pure@pmu.ac.at.

For publications in the category '*Editable*':

1. Log in to PURE (for details see Question 1).
2. Click on '*Editor*' in the header, navigate to '*Research outputs*', and select '*Editable*':

3. Select the desired publication by clicking on it, then scroll down to the section 'Assignment to *FIZ*'.
4. Click on '*Add assignment to FIZ*' and **select one appropriate category from the list:**
   - FIZ Regenerative Medicine & Novel Therapies
   - FIZ Public Health & Health Services Research
   - Publication not within one FIZ – for publications that belong to ***no FIZ***

5. Click on ‘*Save*’.

> Please ensure that the workflow status ‘*For validation*’ **is not changed**:

In the next step, the publication will be validated (checked) by the Research Management.

> If you don’t see your question answered here, or have suggestions for additional questions/answers, please contact pure support at pure@pmu.ac.at.
